Career Objective

I'm an Information Technology student with a growing interest in full-stack development and Power BI. I enjoy learning by doing and have some hands-on experience with tools like React, Node.js, and AWS. I'm looking for opportunities where I can build real-world skills, contribute to projects, and grow as a developer.

Experience

Prophecy Technologies

Chennai, Tamil Nadu

Full Stack Web Development Internship – React | Node.js | SQL | Ubuntu | IONOS

Feb 2025 – Apr 2025

- Assisted in developing a basic ERP web app using React for frontend, Node.js for backend, and SQL for data management.
- Helped with testing, debugging, and fixing minor issues during development.
- Worked with SQL for data handling and helped deploy the application on an Ubuntu server hosted on IONOS.

Vdart Global Capabilities

Trichy, Tamil Nadu

AWS Internship

Jul 2024 – Aug 2024

- Gained foundational knowledge of key AWS services, including EC2, S3, IAM, RDS, and Amplify.
- Built and published interactive data visualization dashboards using Amazon QuickSight.
- Learned the basics of cloud architecture, security, and data management.
